Engaged Classroom Technology Showcase

December 12-15, 2016

The Monroe School District would like to invite you to attend the Engaged Classroom Technology Showcase to discover how new technologies empower our students in developing their skills in Critical Thinking, Communication, Collaboration, and Creativity. The Technology Showcase is an opportunity for the Monroe community to see 21st century learning tools in action and explore how technology engages and inspires learning. Please join us in embarking on a journey to increase access, invigorate teaching, and drive innovative learning for children in all of our schools.
