Comments:

Big support for moving to two middle schools ASAP. Thank you for continuing to involve the community/parents?  
 What about making changes to the theater at Frank Wagner East to make it into a community theater?  
 The dots represent our prioritization but the red does not fit. All of these items are important and need attention and support.  
 How would staffing change at the middle schools? Would class sizes increase? How would boundaries change? Would there still be choice?  
 Concerned about the safety issue at SWE. It is not a secure campus.  
 Would they consider selling the property they currently hold to help fund projects?  
 Security at SWE is a big concern -- the bathrooms are in an area that an outsider has access to without office knowledge.  
 If you already have land that's not big enough, why not sell it and put it towards new land?  
 SWE is just out of room. Lighting is poor. We really struggle to keep our children out of the rain.  
 Could the modernization at FEW be made unnecessary if the students were reallocated to another facility? Perhaps use these funds for another school's upgrade?  
 Monroe Arts Council would like to hold fundraising events to invest into revitalizing Frank Wagner Auditorium.  
 We really want new fixtures in the bathrooms, but ran out of green dots.  
 What sort of business is the district going to target and market to buy the old district building?
