

# Monroe School District Assessment Calendar 2020-2021

## Introduction:

### Calendar Updates:

We recognize that this year will be unlike any other year we've ever experienced as a school district. We know that there will be challenges and obstacles this year as a district, in our buildings, and in our classrooms. The following assessment calendar has been created to help us plan for the required state and district assessments. Please know, some of the dates below may need to be adjusted for unforeseen circumstances and/or challenges. Other dates, however, have been set by OSPI, and we do not have the ability to adjust them. If changes are made to the following calendar, we will send out an updated calendar and detail the changes made.

Revisions: 10/13/2020

- **Hi Cap (COGAT):** Screening will take place during November and December
- **F&P Benchmark Assessments:** Students will be screened by teacher and a team from the district office when they return to in person/hybrid learning. We anticipate this will happen from November – January.
- **SEL Surveys:** Dates have been extended into November.
- **MAP Growth:** Dates have been adjusted to January and May for high school students who are enrolled in Math and ELA courses.

### Calendar Layout:

The assessment calendar for the year has been broken out by grade level. Please use the identifying column on the far left to find your grade levels. The calendar also includes month for references, as well as semester dates, and conference dates.
