Dear Physician,

Please complete Section 1 of the attached Home/Hospital Instruction Form. Home/Hospital instruction is provided to students who are temporarily unable to attend school for an estimated period of four weeks or more because of physical disability or illness. Tutoring is provided to students who are ill or disabled, requiring instruction at home or in hospital. The program does not provide tutoring to students caring for an infant or a relative who is ill.

Home/Hospital is limited to services as deemed necessary to provide temporary intervention as a result of physical disability or illness. Home/Hospital services are limited to a maximum of 18 weeks. Weeks of absences may be consecutive or intermittent, but may not exceed the 18 week limit. This will not provide a complete educational program for the student, but will assist in maintaining his/her educational status when absent from school temporarily.

Please ask for the minimum number of weeks of absence from school that the student requires for recovery from illness or injury so that he/she may resume school attendance and participation in a complete educational program.

Please call me at 360-804-2608 if you have any questions. Thank you for your assistance.

Sincerely,
