

Bus Conduct Progressive Discipline

The Monroe School District Transportation department utilizes a progressive discipline process. Based on the incidents severity and frequency, drivers and school principals follow progressive steps to manage student behavior. The 4 steps below outline the overall process.

1. Drivers are encouraged to manage students with Positive Behavior Support including positive praise and practicing student expectations.
2. If a misbehavior arises, drivers will remind students of expectations and give choices for safe behavior on the bus. A Bus Note may be sent home as a form of communication with the parents.
3. Should the behavior continue, drivers will call home to discuss the safety concerns with the parent. An incident report will be created and a new seat may be assigned for a period of time.
4. Should the behavior persist, or the behavior is critical in nature, such as a fight or harassment, a Bus Conduct report will be completed notifying the school as well as the parents. At this point, further progressive discipline will take place such as a long term assigned seat, loss of free time at school or loss of riding privileges for a designated period of time

Referral reasons are categorized into three groups, minor, moderate and critical. Each bus incident can be very different requiring a unique approach. These progressive steps in each group provide guidance and consistency with flexibility within each step to provide students with a positive path of learning and improvement. For each group of reasons there is a defined progression of actions.

A - Minor Reasons

- Step 1 (1st occurrence) - The driver will select the referral type, "incident".
 - The driver will talk to the student and repeat the bus expectations to help educate the student.
- Step 2 (2nd occurrence) - The driver will select the referral type, "incident".
 - The driver will talk to the student again and repeat the bus expectations
 - The driver will call the parent to inform them of the incident and ask for assistance in developing an action plan of learning and improvement.
 - The driver can talk to the administrator or teacher for additional insight
- Step 3 (3rd occurrence) - If there is a 3rd occurrence within a month the driver will select the referral type, "conduct". If the 3rd occurrence is after a month or after there were

positive results from the driver actions on the 2nd occurrence then the progression will start over at step 1.

- The driver will again talk to the student and the parent to let them know that a referral was completed as the third step to the process.
- The driver will also talk to the administrator to discuss the most appropriate action. This can also result in a meeting (in person or over the phone) between the driver, parent, student and administrator if appropriate to develop an action plan of learning and improvement.
- A referral notice will be generated from Bus Conduct and the administrator will email to the parent.
- Step 4 (4th occurrence) - If there is a 4th occurrence within a month following the previous referral and action taken, another referral will be completed and the action must be progressive and cannot be the same action taken in step 3. If the 4th occurrence is after a month or after there were positive results from the actions in step 3 then the progression will start over at step 1

Note: Each time a conduct referral type is completed, the action taken must be progressive from the previous action.

B - Moderate Reasons

- Step 1 (1st occurrence) - The driver will select the “incident” referral type.
 - The driver will talk to the student and repeat the bus expectations
 - The driver will call the parent to inform them of the incident and ask for assistance.
- Step 2 (2nd occurrence) - The driver will select the “incident” referral type.

Note: The driver can choose to select “conduct” depending on the severity and intent of the incident.

 - The driver will talk to the student again and repeat the bus expectations and possibly assign a seat in the front of the bus.
 - The driver will call the parent to inform them of the incident and ask for assistance.
 - The driver will also talk to the administrator to give them a heads of the incidents.
 - The driver can talk to the teacher for additional insight
- Step 3 (3rd occurrence) - The driver will select the “conduct” referral type.
 - A meeting is scheduled with the parent, student, driver and administrator to address the concern and discuss the appropriate action.
- Step 4 (4th occurrence) - The driver will select the “conduct” referral type.
 - Student is removed from the bus, progressive action starts, 1, 3, 5 days as determined by the administrator.
 - Student and parent must have a re-admittance meeting (in person or by phone) with driver and administrator to reinforce the bus expectations and have a contract signed by all parties that clearly defines the bus expectations and

possible future consequences. The meeting will be scheduled and facilitated by the administrator.

- If it is believed the student has no way to get to school, then another progressive action may be assigned in lieu of removal from the bus.
- Any bus conduct issues with the student assigned to in-school suspension for bus conduct would result in the suspension being converted to a home suspension.

Note: For moderate reasons the progression of steps will not start over during the school year. Each time a conduct referral type is completed, the action taken must be progressive from the previous action.

C - Critical Reasons

All actions that fall under the critical reasons category require immediate notification to the transportation department and school administrator. A bus conduct referral type “conduct” will also be completed. All actions taken must be clearly communicated to the transportation department and driver.

Note: Each time a conduct referral type is completed, the action taken must be progressive from the previous action.
